## LABORATORY OF EXPERIENCES : CREATING TOOLS TO WORK WITH YOUNG!

**THE TRAINING WILL GATHER 20 YOUTH WORKERS (18-30) SUPPORTED BY 3 TRAINERS WHO WILL PRESENT, THROUGH WORKSHOPS, THE DIFFERENT APPROACHES TO BUILD COLLECTIVE TOOLS TO ACT AND WORK WITH YOUNG PEOPLE.**

This project follows a local work on construction and dialogue with young people in the area.

It is focused on the topic of creating tools and sharing methodologies in a context of intercultural diversity and presents itself as a laboratory of experiences and creation.

Through this training we aim to strengthen the role of youth organizations as actors of initiatives on collective construction and "doing together". The idea is to create together tools and workshops to promote mobility.

The concepts, methods and tools presented will allow participants to nourish and boost their reflection on listening others and their needs, in order to enhance their experience and help them build their future. Thus, it will also be possible to enrich their practice in the management of groups. Back in their organization they will have the keys to imagine, create tools adapted to the different situations that the professional daily life presents.

The methodology of the training will rely on non-formal education, collective and creative intelligence, and the trainer's team will be careful to alternate between theoretical contributions and practical inputs. Innovative and participatory methods will also be used so as to create a group dynamic based on confidence and respect.

As a result of this training, the participants will have an important multiplier role in that they will be able to use the methods developed in the tool laboratory.

They will notably animate mobility workshops during the training for youth leaders, volunteers (EVS, Civic Service volunteers,...) with their target audience and / or project coordination teams, or during the various activities (international volunteer workcamps, youth exchanges, European Voluntary Service, etc.).
