Body & Bodies

APV: June 15-17

YE: July 5th-July 15th

San Desiderio (Genoa), Italy

THE PROJECT

The project "Body and Bodies" aims to improve the relationship between young people and their bodies, guiding them in a process of exploration, awareness and research that will take place mainly with the help of different physical disciplines (theatre, dance, circus arts, yoga, ludopedagogy).

OBJECTIVES

- To explore the body as a means of understanding oneself and the world around it
- To regain confidence in bodies as a means of sociality and communication, particularly after the negative impact of the Covid-19 pandemic
- To promote physical and mental well-being
- To promote knowledge and practice of new physical disciplines among young people

PARTICIPANT'S PROFILE

- 36 young people, aged between 20 and 30y/o, from Italy, Portugal, Greece, Poland, Slovakia and Germany.
- The Group Leaders will be directly involved in the activities, coming from and being active members in their respective sending organizations, and will contribute to the management of some workshops on specific topics.

ACTIVITIES

- A series of activities based entirely on non-formal education aimed initially to introduce the participants among themselves (ice-Breakers, name games, team-building activities), which will then lead the group to face the workshops on dance, theatre, ludopedagog, yoga and circus arts.
- Practical activities will be alternated with group discussion activities, simulations and role-playing games.

ACTIVITIES

- Each workshop will start with a moment of awareness of your physical condition of the day and will end with a cool-down that will also serve to collect feedback on how the session went, guiding participants towards the recollection in themselves.
- The aim will not be to provide a single way to evolve during practices and workshops but to provide the tools so that everyone can face the inner path alone or alone.
